RE: BPR Carpentry Limited.

To whom It May Concern,

I provide this reference for BPR Carpentry Limited, who has recently completed works on our project at Godwin & Crowndale Estate, Camden. Their works consisted of Structural Carpentry, 2nd Fix Carpentry and Drylining.

In terms of quality, their workmanship has consistently met a high standard, with good attention to detail and compliance with the construction drawings. Any snagging items have been addressed promptly and without issue.

Regarding adherence to programme, BPR Carpentry has demonstrated a reliable ability to meet agreed programme dates. They have shown good planning and coordination, ensuring that works and material deliveries are completed in line with the overall construction schedule. Engagement with site staff has been professional and cooperative.

Labour levels have been appropriate to the scale of the works. They have allocated sufficient resources to maintain progress, while also remaining flexible when required.

From a commercial perspective, they have been straightforward to work with. There is a good level of cost certainty, and variations have been handled reasonably and transparently, with a collaborative approach to agreeing changes.

Overall, BPR Carpentry has proven to be a dependable subcontractor, and I would have no hesitation in working with them again or recommending their services.

Yours faithfully,

Niall Conneally
