Gen One Construction

To Whom It May Concern.

I am pleased to provide this reference for BPR Carpentry based on their ongoing work with Gen One Construction, where I serve as Commercial Director.

BPR Carpentry have worked with us across a number of projects and have consistently demonstrated a strong understanding of both the operational and commercial requirements necessary to successfully deliver construction schemes.

Their involvement in the 32-plot new build development for the Royal Borough of Greenwich was particularly noteworthy. Throughout the project, BPR Carpentry delivered a high standard of workmanship while maintaining programme commitments and supporting the overall commercial performance of the scheme.

From a commercial perspective, BPR Carpentry have proven to be a reliable and well-managed subcontractor. Applications for payment are submitted accurately, fully substantiated and in a timely manner, enabling prompt agreement of valuations and supporting effective cash flow management across the project.

Equally, any variations are identified early, communicated clearly and priced fairly, with supporting information provided promptly. This proactive approach allows variation accounts to be agreed efficiently and minimises the potential for commercial disputes or delays later in the project lifecycle. Their transparency and commercial awareness have been of significant value in maintaining cost certainty and programme continuity.

In addition to their commercial capability, BPR Carpentry are well organised on site, communicate effectively with both the site and commercial teams, and work collaboratively with other trades. They take a pragmatic, solutions-focused approach and can be relied upon to perform under pressure and within tight programme constraints.

BPR Carpentry also maintain high standards of health and safety and conduct themselves professionally at all times, reflecting positively on both their own business and ours.

Based on our experience, I would have no hesitation in recommending BPR Carpentry to any organisation seeking a dependable, commercially aware and skilled carpentry contractor. We look forward to continuing our relationship with them on future projects.

Yours Faithfully,

Andy Travis MCIOB
Commercial Director
