To Whom It May Concern,

I am pleased to provide this reference for BPR Carpentry, based on their work with us at Gen One Construction, where I serve as Operations Director.

BPR Carpentry have worked with us on numerous schemes, consistently demonstrating a high standard of workmanship, professionalism, and reliability. Notably, they played a key role in the successful delivery of a 32-plot new build development for the Royal Borough of Greenwich, where their attention to detail and commitment to quality were evident throughout all stages of the project.

Their carpentry work, from first fix through to final finishes, has always been completed to an excellent standard. In addition to their technical capability, the team at BPR Carpentry are well organised, proactive, and easy to work with on site. They communicate effectively, integrate well with other trades, and maintain a positive, solutions-focused attitude, even when working to tight deadlines or under pressure.

Health and safety standards have always been adhered to, and their operatives conduct themselves in a professional manner at all times, reflecting well on both their company and ours.

I would have no hesitation in recommending BPR Carpentry to any organisation seeking a dependable and skilled carpentry contractor. We look forward to continuing our working relationship with them on future projects.

Should you require any further information, please do not hesitate to contact me.

Yours faithfully,

Stuart Donovan

Operations Director
