To whoever it may concern.

BPR Carpentry have worked for me on the holiday in project at Camden with a project value of 15 million which has included all the carpentry package with a very tight phased handover of the following floors.

- 150no bedrooms floors mezz to 5th floor, BPR works 1st fix ply floors & 2nd fix doors frames / Assa Abloy locks with card entry/ new fitted wardrobes to each bedroom / shower rooms all fixtures and fittings.
- 5th floor new build steel frame steel frame extensions , roof joists ply roof and all of the above 1st & 2nd fix to the rooms.
- large basement restaurant, kitchens, back of house offices 1st and 2nd fix
- Ground floor – kitchen – reception – bar , 1st & 2nd fix
- Glass house function rooms with bar – 1st fix & 2nd fix carpentry.

BPR Carpentry hit all target phased programmes with good quality workmanship with a very experienced supervisor who worked with us to overcome any problems on site and most importantly their health and saferty attitude was good.

Best regards

Neil Gallagher
